Dear Sister,

Just a few lines hoping to find you quite well. I received your letter all right, I am writing to Mr Quinn about the objection he has with my peoples respects to Beccy. I am letting him know that my people are not responsible for what I have done. But understand none of my people must think any the worse of him for that. I gave him reasons against myself but not against any of you. I would like to know who that somebody else is that is buried there. I had a visitor on Thursday and she never told me about anybody else being buried there and this woman's child is just two graves from Beccy's.

Who is this woman who brought the news you might let me know. Don't forget there were plenty to do my darling an ill turn and maybe just say that to you. Well never mind dear sister always go and see the child and let me know about her. Give my best respects to all. When is our Jack coming in write and let me know. If Beccy's father has not said what you've been told you will never get consent after this letter I sent. Now my darling's dead and they cannot hurt her. Now I will let them know the trth, what my little girl told me. It was only for my darling's sake I did not say anything while she lived. If all goes well I hope to be with my own little Beccy in 6 or 7 weeks time, that is ther only thing that makes me happy when I think about our meeting again. Well cheer up lass my happy day is coming bye and bye. There is no more to say at present to much occupied with thoughts of Mr Quinn and his objection. Best luck to all,

From your loving brother
